Something New in Ranges.

The Pacific Hardware Co., (Ld.), have just received an invoice of the M. & D. Wrought Steel Ranges which are superior to anything of the kind yet invented. They have been adopted by the United States Navy and are in use on the Charleston, San Francisco and Boston and other new vessels. Also on several of the new vessels lately built for the trade between San Francisco and this port.

An examination of these Ranges will at once show their many advantages over all competitors.

THE LEGISLATURE.

110TH DAY.

MONDAY, Oct. 17, 1892.

Morning Session.

The Assembly convened at 10 o'clock for prayer, after which the minutes of previous meeting were read and approved.

Rep. Waipulani moved the following resolution of

WANT OF CONFIDENCE.

Whereas—The present Cabinet has not announced or given any intimation of evidence of any financial policy which will extricate the country from its present dangerous financial situation; and

Whereas—It is essential to the commercial progress of the country that more favorable treaty relations with the United States be obtained whereby our products can obtain a free market in that country; and

Whereas—The present Cabinet has shown no disposition to favor any such policy, and the present head of the Cabinet has displayed conspicuous hostility toward the representative of that country in this kingdom, and the general tone of the administration has been and is one of opposition and hostility to the United States of America, and American interests, thereby rendering it improbable that any changes in our treaty relations favorable to Hawaii can be negotiated by this Cabinet, and

Whereas—The Cabinet has given no evidence of any intention to attempt to remedy existing scandals in the Police Department, and have otherwise failed to evince any ability to successfully guide the nation through the difficulties and dangers surrounding it;

Therefore be it Resolved,—That the Legislature hereby expresses its want of confidence in the present Cabinet.

Rep. Waipulani, in moving the resolution, offered his reasons for the action. He had voted against the former resolution, because the Cabinet was new and ought to have an opportunity to show what it could do. The Cabinet had now been in office several weeks, but as yet it had presented no policy. The House was tired of waiting. One of the greatest desires of the Legislature and country was to procure closer relations with the United States. The head of the Cabinet had placed himself in antagonism to the representative of the United States. The BULLETIN had published direct attacks on the American Minister, and although it was generally believed that the BULLETIN was controlled by the Cabinet, the Ministers had done nothing to stop the BULLETIN in that course. How could we hope for improved relations with the United States if such an irritating policy was persisted in? Last of all and maybe not the least reason for the introduction of this resolution is the lack of action by the Cabinet relative to matters connected with the scandals connected with the Police Department. Committee reports have been presented but no action taken. The Attorney-General means by his late motion to either insult the committees which have spent time and had trouble in investigating the matters, or the other intention may be that by reference to a special committee the matter would not be reported on until the end of the session and thus stave off investigation. The complaint relative to the great army of clerks which were employed at the Police Station has been passed by unnoticed. The gambling games of che fa and paka pio can be seen even now in operation in Maunakea street and with police mingling with the players. The scandals connected with the seizure and sale of opium are well known. The Attorney-General could clean out the Department and renovate it. Those were some of the member's reasons for presenting the resolution.

Rep. Kapahu moved that the resolution be tabled and made the special order of the day for next Thursday. His reason was because he did not believe that the members were prepared to discuss the matter now. It was only in accord with simple justice and fairness that this motion should pass. The adoption of a resolution of this kind was no small matter.

Rep. Kaui moved that the resolution be discussed to-day. Continuing he said that this is the second resolution of this kind brought in; the Cabinet should have been prepared, as the air has been full of rumors for the past two weeks.

Rep. Kapahu questioned the member as to whether the subject matter of the resolution was the same as that which had been previously presented.

Rep. Kaui said there was a great similarity; the resolutions were of the same family, and the burden of their songs was the same, viz.: that the House had no confidence in the Cabinet. The last resolution was carried by a vote of 21 to 21, but a point of law saved the Cabinet their seats.

Rep. Nawahi said that it made little difference to him when the resolution was discussed. The House, however, would sit in the manner of a judge, the Cabinet were the defendants; if they desired more time it was only proper that time should be given. The last resolution was introduced and discussed immediately, although then the Attorney-General was only in position twenty-seven hours. He favored consideration of resolution on next Thursday.

Rep. Kamaoia favored postponement until next Thursday. He was disappointed in the Cabinet. They seemed yet without a policy and they were nearly a month in office. The scandals in connection with the Police Department were well known to the members of the Cabinet before they took their seats. It was well known that the desire of the Representatives as expressed through committee reports was that that Department be cleansed. The Minister of Finance was previously a member of the Finance Committee

and had assisted in the preparation of a report reflecting strongly on the conduct of affairs in the Police Department. Why does the Minister not join hands with the Attorney-General and compel action on the charges presented in that report? Another thing which has shaken my confidence in the Cabinet, and especially in the Attorney-General, is the introduction of the Registration Bill, which is most obnoxious to native Hawaiians. Another reason for lack of confidence in the Attorney-General was the introduction by him of another obnoxious bill, viz., that relative to validating mortgages of property by the Oahu Railway Company. It is also necessary to enter into more favorable treaty relations with the United States, but the present Cabinet has not made any effort to effect such. The country in its present situation cannot afford to evince a hostile spirit to the United States. We should show the United States that we are not hostile in any way. The Cabinet, instead of endeavoring to show signs of any policy, are only procrastinating. They have not shown any sign of introducing or preparing a financial policy of any kind.

Rep. Kanealii said that he agreed with the first and last propositions in the resolution; but that relating to the relation existing between the Minister of Finance and the American Minister should be struck out. He considered that there was enough in the first two clauses of the resolution to oust the Cabinet. He favored consideration of the resolution to-day. The House seemed to want the flesh of the Cabinet, then another could be appointed and also killed; and they could go on from day to day appointing and discharging for a year to come.

Noble Hoapili passed for a reply from the Cabinet relative to whether any time was desired by them to answer the resolution.

Minister Neumann said that it had been stated that the Cabinet were aware of the introduction of this resolution. That was not true. He had no knowledge of it; he, however, had hoped that it would come some time. There were certain matters stated in this last resolution which reflected upon the members of the Cabinet in their different personalities, and for himself, if given the opportunity, he would answer in unmistakable language. If the House felt disposed to wait until to-morrow he would be gratified, but he did not wish any delay on his personal account because he would be pleased to resign now or be removed now, it made no material difference with him. He would like when the proper time came to answer the member from Kohala (Kamaoia) and show where certain mistakes planted in that brain found vent through the tongue. He proposed to stand by the Registration and Oahu Railway Co. bills, even if that declaration caused his removal. None were so blind as those who would not see, nor none so deaf as those who would not hear. As he had said before if the House felt disposed to grant until to-morrow, the consideration of the resolution he would be grateful, if not he would be satisfied to have the business go right on.

Noble Hoapili supported the resolution more particularly on the last proposition where the Cabinet is censured for lack of action relative to the Police Department. He related the incidents of a disturbance at a luau some few Sundays ago and the lack of police assistance. The Marshal was responsible and if the Attorney-General could not remove him then he had better step down and out. Have heard it said that the desire had been to evict this Cabinet in favor of another more favorable to annexation. If he believed that was the case then he would be willing to have this Cabinet retained with all the scandals attached. He represented people of Hawaii and his instructions were to oppose all efforts of annexation, and he would now say, as an Hawaiian, and representing Hawaiians that he was opposed to any efforts in that line. He was willing that certain steps toward closer treaty relations should be taken, but no annexation.

Rep. R. W. Wilcox favored the discussion of the resolution at once. The Attorney-General, it was well known, could defend himself at a moment's notice. Nothing had been done with relation to the reports made of the bad condition of things in the Police Department.

Minister Neumann—How does the member know that nothing has been done? He would concede that he had not consulted the member in the matter, but would ask who supplied him with this false information.

Rep. R. W. Wilcox desired to know if it was not true that the committee reports had not been acted on.

Minister Neumann said that he had examined the reports and had made out a report himself thereon which he desired referred to a special committee. He had desired the House to take action because certain recommendations had been made which were more their province to act on than his.

Rep. R. W. Wilcox moved the adoption of the resolution.

Rep. Nawahi supported the motion to strike out all that portion relative to the relations which may exist between the Minister of Finance and the American Minister. The American representative had his recourse if he deemed himself libeled in any way and he should take it not by mixing himself up in this resolution. He, at 12, moved recess until 1:30 p.m. Carried.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness.
